

C03 - Queries with database EMPLOYEESDB and the tables DEPARTMENTS and EMPLOYEES from [this script](#). (continuation)

Do the following queries:

26. Get the surnames of all employees in lowercase.

```
1 • SELECT lower(surname) FROM C03.EMPLOYEES;
```

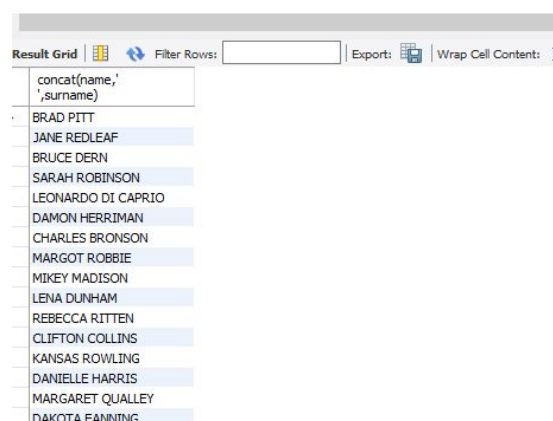

The screenshot shows a database query result grid. The query is `SELECT lower(surname) FROM C03.EMPLOYEES;`. The result grid has a single column labeled `lower(surname)`. The surnames listed are: pitt, redleaf, dern, robinson, di caprio, herriman, bronson, robbie, madison, dunham, ritten, collins, rowling, harris, qualley, and fanning.

lower(surname)
pitt
redleaf
dern
robinson
di caprio
herriman
bronson
robbie
madison
dunham
ritten
collins
rowling
harris
qualley
fanning

27. In a query, concatenate the name of each employee with his/her surname.

```
1 • SELECT concat(name, ' ', surname) FROM C03.EMPLOYEES;
```

The screenshot shows a database query result grid. The query is `SELECT concat(name, ' ', surname) FROM C03.EMPLOYEES;`. The result grid has a single column labeled `concat(name, ' ', surname)`. The concatenated names listed are: BRAD PITT, JANE REDLEAF, BRUCE DERN, SARAH ROBINSON, LEONARDO DI CAPRIO, DAMON HERRIMAN, CHARLES BRONSON, MARGOT ROBBIE, MIKEY MADISON, LENA DUNHAM, REBECCA RITTEN, CLIFTON COLLINS, KANSAS ROWLING, DANIELLE HARRIS, MARGARET QUALLEY, and DAKOTA FANNING.

concat(name, ' ', surname)
BRAD PITT
JANE REDLEAF
BRUCE DERN
SARAH ROBINSON
LEONARDO DI CAPRIO
DAMON HERRIMAN
CHARLES BRONSON
MARGOT ROBBIE
MIKEY MADISON
LENA DUNHAM
REBECCA RITTEN
CLIFTON COLLINS
KANSAS ROWLING
DANIELLE HARRIS
MARGARET QUALLEY
DAKOTA FANNING

28. Show the surname and the length of the surname (function LENGTH) of all employees, sorted by the length of the surnames of the employees descending.

1 • **SELECT** surname, length(surname) **FROM** C03.EMPLOYEES **order by** length(surname) **desc**;

<

Result Grid | Filter Rows: | Export: | Wrap Cell Content: I

	surname	length(surname)
▶	DI CAPRIO	9
	ROBINSON	8
	HERRIMAN	8
	REDLEAF	7
	BRONSON	7
	MADISON	7
	COLLINS	7
	ROWLING	7
	QUALLEY	7
	FANNING	7
	ROBBIE	6
	DUNHAM	6
	RITTEN	6
	HARRIS	6
	PITT	4
	DERN	4

29. Show data of the employees whose surname have 4 characters and ends with 'N'. Do a version using the function LENGTH and another one without it.

```
1 • SELECT * FROM C03.EMPLOYEES where length(surname)=4 and surname like "%N" ;
```

[illegible]

```
1 • SELECT * FROM C03.EMPLOYEES where surname like 'N';
```

[illegible]

33. Show the data of the employees whose surname begins with 'R' and have been recruited in the year 1990.

```
1 • SELECT * FROM C03.EMPLOYEES where surname like "R%" and year(begin_date)=1990;
```

Result Grid									
Filter Rows: <input type="text"/>									
	num	surname	name	occupation	manager	begin_date	salary	commission	dept_num
▶	7369	REDLEAF	JANE	EMPLOYEE	8001	1990-12-17	104000	NULL	20
•	NULL	NULL	NULL	NULL	NULL	NULL	NULL	NULL	NULL

34. Show the name, surname, department name of the employees who have no commission (clue: is NULL).

```
SELECT EMPLOYEES.name, EMPLOYEES.surname, DEPARTMENTS.name
FROM C03.EMPLOYEES
inner join DEPARTMENTS on EMPLOYEES.dept_num=DEPARTMENTS.num
where EMPLOYEES.commission is null;
```

```
1 • SELECT EMPLOYEES.name, EMPLOYEES.surname, DEPARTMENTS.name FROM C03.EMPLOYEES inner join DEPARTMENTS on EMPLOYEES.dept_num=DEPARTMENTS.num where EMPLOYEES.commission is null;
```

Result Grid		
Filter Rows: <input type="text"/>		
name	surname	name
DANIELLE	HARRIS	ACCOUNTING
MARGOT	ROBBIE	ACCOUNTING

MIKEY	MADISON	RESEARCH
LEONARDO	DI CAPRIO	RESEARCH
JANE	REDLEAF	RESEARCH
BRAD	PITT	RESEARCH
CLIFTON	COLLINS	SALES
CHARLES	BRONSON	SALES

35. Show the name, surname and occupation of employees with the name, surname and occupation of their managers. Columns must have different names and you must order it by the manager surname. Clue: Slide 32.

```
SELECT E.name as Name, E.surname as Surname, E.occupation as Occupation,
M.name as ManagerName, M.surname as ManagerSurname, M.occupation as
ManagerOccupation
FROM C03.EMPLOYEES as E, C03.EMPLOYEES as M
where E.manager=M.num
order by M.surname;
```

```
1 • SELECT E.name as Name, E.surname as Surname, E.occupation as Occupation, M.name as ManagerName, M.surname as ManagerSurname, M.occupation as ManagerOccupation
2 FROM C03.EMPLOYEES as E, C03.EMPLOYEES as M where E.manager=M.num order by M.surname;
```
